## APPLICATIONS

**Epic Meal Planner** | *Meal-Planning, Calendar & Recipes App* | [GitHub](#) / Live (WIP)

- Collaborated with a team to develop a full-stack, mobile-responsive web application that helps users plan meals for a healthier lifestyle
- Built with a **React** front-end that uses the **Fetch API** to connect with a full back-end utilizing **PHP**, **MySQL**, and **JSON**
- Applied **Agile** methodologies by using **Meistertask**, daily standups, **sprints**, and **release candidates** to plan, strategize, and track progress
- Utilized **Figma** to generate a cohesive **UI/UX design** and employed **HTML5**, **CSS3**, and **Bootstrap4** to create that wireframe

**Snow Optics** | *Snow Goggles E-Commerce Site* | [GitHub](#) / Live (WIP)

- A full-stack shopping cart application where users can view snow goggles for sale, add products to a cart, and purchase the products
- Built **React** components in **jsx** that manage both **global state** and **local state**
- Developed **REST API** in **PHP** to send **JSON** data between server and client
- Mobile and desktop responsive with **HTML5**, **CSS3**, and **Bootstrap4**

**Monster Match** | *Memory Match Card Game* | [GitHub](#) / [Live](#)

- A "Monsters Inc." themed matching game with live stats and a win condition
- Built logic for card matching, stats updating, and win condition in **JavaScript**
- Created core **HTML5** skeleton for dynamic **DOM** manipulation using **jQuery**
- Implemented **CSS3 media queries** for responsiveness across a variety of desktop and mobile screen sizes
